Glebe Matters
Many snakes never stop growing. That’s one reason they must shed their skin.

Snakes can see through their eyelids.

Snakes smell with their tongue.

A young kangaroo is called a joey.

A group of kangaroos is called a mob.

If you hit a kangaroo’s tail off the ground it can’t hop.

Kangaroos cannot walk backwards.

Did You Know?

We got to pet them! We learnt about their lifestyle, habitat, defence mechanisms, predators and much more. Then we learnt about their old jawy frogmouth, a cuddly koala and a whingeback lizard. We learnt about their habits and then we went into the learning burrow and were introduced to a wriggly animal called a swamp octopus. We had so much fun! We walked around the zoo looking at the Featherdale Wildlife Park, so that we could get up close and personal with the animals. We were so impressed by the animals that we wrote about them. In order to provide a more enriching experience, we went to learn about a different animal starting with the letter of the week and then we have learnt about a different animal every week. Next week we have learnt about…

Ride the Bridge / Ride Sydney

Ideal for families and novice riders who want to experience the thrill of riding over the Sydney Harbour Bridge main deck and past some of Sydney’s most iconic landmarks including the Sydney Opera House and historic Rocks area. Celebrate your Spring Cycle success with a festival finish at Pirrama Park, Pyrmont.

For those looking for an adventure, this route takes in the best of the 12km Sydney City Ride including riding over the spectacular Sydney Harbour Bridge, past the Sydney Opera House and historic Rocks area, before exploring the diverse Inner West and venturing out to Sydney Olympic Park for a festival finish and cycling expo.

Challenge your cycling performance with a century plus by riding Greater Sydney. Clock up 50ks riding across the Sydney Harbour Bridge, past the Opera House and traversing the diverse Inner West before taking your challenge out to Western Sydney Parklands via picturesque Parramatta and Prospect Dam. Return for your festival finish and cycling expo at Sydney Olympic Park.

The NCIE learn to swim program is more than just “learning the strokes”. It’s about building water survival skills for life.

We offer a concentrated learning program which focuses on water safety, personal development and stroke correction. Children progress through a series of learning levels and competencies, making them proficient in all swimming strokes, rescues and races.

As part of the program, students receive one 30 minute lesson a week and unlimited swimming at the NCIE heated indoor pool.

“Thank you Tim and Simona for investing so much in my sons. Last Friday both they participated in the school swimming carnival and together they won a total of 7 ribbons! This amazing achievement is a direct result of outstanding coaching. Simona and Tim have a genuine care for each child and seem to know how far and hard to push them while still keeping it fun for the kids.”
